USA - Patent Application 10/585,215 - Use of a metal complex as an n-dopant for an organic semiconducting matrix material, organic semiconducting material and electronic component, and also a dopant and ligand and process for producing same - NovaLED GmbH

Dear Mr. Butter,

Referring to your letter of October 8, 2008. Please find enclosed the combined Declaration and Power of Attorney signed by all inventors except of Olaf Kühl. With regard to the inventor Olaf Kühl the applicant has attempted to send the inventor the declaration by a method which requires the inventor to sign (certified mail - "Übergabe-Einschreiben mit Rückschein") it was tried twice to deliver the declaration to the inventor at Mittelstrasse 10, 04416 Markkleeberg, the place of residence of Mr. Kühl. Mr. Kühl did not open. Therefore, he was informed by the postal office to fetch the letter. This can be taken from page 2, upper part, the box "Empfänger benachrichtigt" (addressee informed) dated January 7, 2009. Mr. Kühl did not appear at the postal office to take the respective letter of the applicant. Now, the legal term for keeping such letters has lapsed and the letter was re-sent to our applicant. Thus, it is our understanding, that all due care was taken by the applicant to send the declaration to Mr.

Kühl, but he ignored it. As already informed, the relation between the patentee and Mr. Kühl might be somewhat better.

Please let us know whether such document is sufficient to proof that the inventor was sent the declaration and refused to sign it. It is our understanding that the applicant may not provide any better proof in this regard.

If you deem the documentation sufficient, please forward it to the USPTO.

For any further questions, please let us know.

Best regards,

Very truly yours  
BOEHMERT & BOEHMERT

Volker Scholz
